An effective technique for figuring out a value is to send out a survey to your current customers. If these customers have already purchased an ebook from you, ask for their opinion in terms of price. Do that by making a gross sales web page for the brand new e-book, but don't include a price on that page. As an alternative, add numerous links to survey questions that ask pointed questions to help you in assigning a price to your ebook.

One other technique is to check out prices by making a variety of duplicate sales pages with different costs on each page. Make sure your sales copy is strictly the same on each page, and

consists of your promoting-deal with sentence. Then determine for each page the conversion ratio between visitors to your website and gross sales of your book. It will inform you what your optimum price is.
