An effective method for figuring out a value is to ship out a survey to your present customers. If these customers have already bought an ebook from you, ask for their opinion when it comes to price. Do this by creating a gross sales page for the brand new e-book, but don't include a value on that page. As an alternative, add a lot of links to survey questions that ask pointed questions to help you in assigning a price to your ebook.

One other technique is to check out prices by making a variety of duplicate sales pages with different prices on every page. Be sure your sales copy is precisely the similar on every page, and includes your promoting-deal with sentence. Then work out for every page the conversion ratio between guests to your site and sales of your book. It will tell you what your optimum price is.

In the end, for those who've written a e-book that solves a downside or presents a new approach, your e book will usher in each visitors and profits.
